## BLOUNT COUNTY SOIL CONSERVATION DISTRICT and UT EXTENSION-BLOUNT COUNTY OFFER Homeowner Education Workshops

**Enjoy healthy living** Minimize the exposure of pesticides and fertilizers to you and your family as well as your pets.

**Save time and money** Let nature do the work for you with a landscape that minimizes maintenance requirements, less watering, fertilizing and using other costly products.

**Reduce pollution and preserve our rivers, lakes, and streams** Reduce pollutants that run off into our threatened aquatic ecosystem.

**Conserve our threatened water resources** Choose plants that are suited best for your landscape and are drought tolerant where ever possible.

**Preserve wildlife habitat** Make your landscape come alive by choosing plants that provide food and shelter for native wildlife.

**Attend a Blount Friendly Landscape Workshop** Learn the 10 steps to a become an Environmental Steward with the help of a Blount County Master Gardener as your Garden Coach.

**UT Extension**

***Blount Friendly Landscaping benefits you,  
your family and your home. Your efforts will  
benefit our community and the future of  
Blount County's natural resources.***
